

# Capriccio's Bar

## Italian hand gestures

Italians are famous throughout the world for their colorful language and their way of sometimes expressing entire concepts with a single gesture or with a movement of the hands or arms.

It may seem hard to believe but a sentence like "What are you talking about?", among Italians can be expressed without any need to speak.

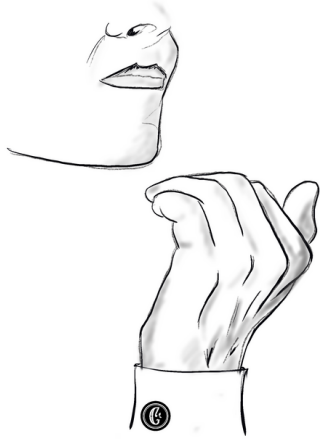

Below is a fun journey through our cocktails named after the most popular and most used hand motions of the Italian language.

**Enjoy every sip of our culture!**  
**Capriccio's Team**
