Water

Alkaline Still Water 750ml - \$4,50

Alkaline Sparkling Water 750ml - \$4,50

For more than 30 years, Vivreau has been on the front edge of water sustainability innovation. Vivreau is not just an environmental innovation, it also implements a resourceful filtration method, using a sub-micron activated carbon block filter.

With the help of this filter, it can get rid of almost 99% of impurities while maintaining the integrity of the minerals. UV sterilization is no longer required thanks to Vivreau, utilizing higher-grade charcoal filters to eliminate anything that UV might harm.

San Benedetto Still 1L - \$10

San Benedetto Sparkling 1L - \$10

San Benedetto waters are naturally filtered through layers of limestones rocks, giving this water essential minerals and salts, especially calcium and magnesium.

From the glaciers of the Italian Dolomites and Alps, it makes a long journey underground and descends to the spring-well, to a depth of hundreds of meters, a journey of hundreds of kilometres and hundreds of years.
